- 2 -	25X1
At 0500 on 25 August, a train of 50 to 60 cars, predominantly flatcars with sideracks, left the Forst railroad station for Doebern north of Weisswasser, Additional shipments were announced.	
Comment. The 11 shipments totaling about 150 flatars, which were observed in Frankfurt/Oder and, during loadings, in Berlin-Karlshorst	25X1
quite definitely indicate that the bulk of the track-laying vehicles of the mechanized and tank regiments of the 7th Gds Mecz Div.transferred to the area between Spremberg and Cottbus for an	25X1
In 1954, the division started its exercises in the same area from the same unloading stations on 19 September and terminated the exercise in the Lieberose area on 23 September. Provided that the wheeled elements arrived in the assembly area by road at the same time, it is assumed that the divisional exercises started 3 to 4 weeks earlier than in 1954. This assumption is supported by the observation that the regimental exercises also started 3 to 4 weeks earlier	25 X 1
than in the preceding year.	25X1
